

K-LOVE is the only radio station playing Christian music that I can access in my home or car. I listen to it daily and know many other people who also count on it for daily encouragement. It is always a safe choice for families; no profanity, no innuendos, no shock jocks. It also provides our community with an opportunity to hear uplifting, encouraging messages from well known, respected sources like the Billy Graham Evangelical Association, Focus on the Family, and Crown Financial Ministries. These messages would not be heard in our community without K-LOVE. They offer hope, encouragement, training on family issues and financial issues. Their news briefs are unbiased and, again, they are safe for families to hear. If there is an issue that needs to be reported, listeners are cautioned to turn down the volume or have sensitive ones leave the room. Our community would suffer without the choice to hear this station because of their unique format and their unique quality of content. Please don't take the one station in our community where we can count on receiving unbiased news reports, encouraging words, helpful messages, and hopeful, uplifting music 24/7. their unique content and
